Clear Opening Sizes are for one opening.

Visible Glass Sizes are for one lite of glass. Total Visible Glass is combined area of all lites of glass in entire unit.

To calculate actual glass size per opening, add 7/8" to the Visible Glass Width and add 7/8" to the Visible Glass Height.

* Rough opening sizes shown are for frame construction. Consult a Silver Line dealer for other rough opening size information, such as with masonry or block applications.

^ **BOLD** type indicates window meets or exceeds clear opening area of 5.7 sq. ft., clear opening width of 20" and clear opening height of 24".

Windows with height of over 7' will be an Oriel window (top sash is larger than bottom sash).
